2009 KENTUCKY ANNUAL HOME HEALTH SERVICES REPORT

INTRODUCTION

The Office of Health Policy announces the release of the 2009 Kentucky Annual Home Health Services Report. This office is responsible for utilization data collection and reporting required by 902 KAR 20:008 (rev. 10-15-03) and in support of the State Health Plan 902 KAR 5:020 (rev. 6-9-09). This report shows all census data, age distribution together with total patients served, and patients served by discipline and number of visits. This report is organized by county within Area Development Districts (ADD). A map of the ADDs is included at the end of this section.

This report covers the services provided from January 1, 2009 to December 31, 2009. The file received from the Office of Inspector General (OIG), Division of Licensure and Regulation contained 110 Home Health Agencies. Data in this report covers 100% of all licensed home health agencies.

Data in this report are organized in three sections. Section I shows beginning census, admissions, discharges and ending census by agency and county of service. Section II shows total patients served by age category, agency and county of service. Section III shows the number of patients served and number of visits for various disciplines (skilled nursing, home health aide, physical therapy, occupational therapy, and speech therapy) for each agency during 2009. The agencies are grouped first by ADD then by county served. **ADD totals** appear throughout the report following all county data for each ADD. **Statewide totals** appear at the end of each section. In addition, Section IV contains information and changes regarding individual agencies during the year.

The Office of Health Policy produces nine utilization and services reports, which can be obtained by contacting our office. In addition to the Annual Home Health Services Report, the following reports are available: Hospital Utilization and Services Report; Long-Term Care Services Report; Hospice Services Report; Magnetic Resonance Imaging Registry Report; the Ambulatory Surgical Services Report, the Megavoltage Equipment Services Report, the Positron Emission Tomography Services Report and the Private Duty Nursing Services Report. These reports can be downloaded from the following website: <http://chfs.ky.gov/ohp/dhppd/dataresgal.htm>

2009 Kentucky Annual Home Health Services Report

Section IV Notes

Report Notes

Baptist Hospital East Home Health Agency	Traditional HHA	HCB/Waiver patients were inadvertently adding in ending census 2008. 2009-Traditional Home Health beginning census does not match in Marshall and McCracken counties.
Innovative Senior Care Home Health Agency FAYETTE	Traditional HHA	There is a discrepancy between the ending census of 2008 (100) and the beginning census of 2009 (92). There were apparently some 2008 discharges that were not in the system when the statistics were calculated. Also, in 2009 we changed systems used for this calculation and believe that also cause the discrepancy.
Intrepid USA Healthcare Services	Traditional HHA	Agency reporting census difference from 12/08 to 1/09 is due to change in reporting from one county to company 239 and 240. Intrepid has made a change in our system to report by county name rather than zip codes and the changes have made a difference in the # of patients reported per county in Henderson, Union, and Webster counties.
Lifeline Health Care Of Fayette	Traditional HHA	In collecting the data to prepare these reports, the Company became aware of certain inconsistencies with the data reported last year. For example, the beginning census balances did not agree to the prior year ending census balances. Our investigation of those inconsistencies revealed discrepancies resulting from the computer program application and the way that program gathered data. In particular, these discrepancies resulted from the interpretation of zip code and service code information as well as the accumulation and summarization of that data for these reports. We have corrected those inconsistencies and the data presented in these reports is accurate, unduplicated and consistent with our understanding of our patient population and the services provided to it. This applies to Anderson, Fayette, Jessamine, and Woodford counties.
